

Get Involved – Improve Your Local Community

Community boards are the local link between the Buckinghamshire Council and the people and organisations in Buckinghamshire, to take action on local issues.

They are all about giving local people a voice and the chance to get involved and have a say in what goes on in their local area

Each local board identifies priorities to focus on based on what's important in their local area. Your local Board, North West Chilterns, following discussions with the Parish Council representatives, community groups and organisations, have agreed on five broad priorities for the coming year:

- Covid-19 recovery
- Local infrastructure and transport
- Community cohesion
- Mental health and community
- Environment and climate change

If you wish to get involved and make a difference, read more:
