

Update on Food Waste Disposal

Unfortunately, the temporary change to the collection of food waste in the Chiltern and Wycombe areas will continue for a while yet. This is due solely to the continued national shortage of HGV drivers and the impact that situation has on the Council's refuse contractor.

Whilst the Council's waste contractors are working hard to recruit drivers, including increasing their recruitment incentive and hourly pay rate, the Council is not yet in a position to be able to return to separate collections for the Chiltern and Wycombe areas.

Residents in the **Wycombe and Chiltern areas only** should continue to put their food waste in with their general rubbish for collection every two weeks. The Council will continue to collect additional food waste in the caddies on general waste week, but this will not be recycled.
